Cyber Safety – Hectors World

Dear Parents,

As part of our E Learning programme students will be educated about staying safe when online and when using different types of technology. The programme has been developed for New Zealand children with assistance from the NZ Police and the Ministry of Education. The information below describes the programme and its purpose. Over the next 8 weeks all classes will be using the Hectors Word, Cyber Safety programme for this. In week 9 your child will bring home a copy of the Cyber Safety policy for you to read and discuss with them and return to school signed.

You may wish to visit the Hectors World web site and discuss the activities as a family.
